FOR JAMESTOWN EXPOSITION.

Attendance of Native Tribes From the Philippines.

Mr. William Alexander Sutherland, lately of the War Department, sailed from Manila March 5, and from Hongkong by the steamer Korean last Wednesday for San Francisco and Norfolk. Mr. Sutherland has been in the Philippines securing natives as well as exhibits for the Philippine exhibition at the Jamestown exposition. Mr. Frank A. Small, representing Mr. Sutherland and his conferees, is in this city, and says that a letter received from Mr. Sutherland Friday gives an idea of what he has accomplished in the matter.

Representatives of the five most important tribes of the islands have been secured, among them being the very interesting and picturesque Bagobos, a hill tribe from the far northern interior. These people worship trees and consider monkeys as we consider turkeys—a table luxury. Their dress shows that they are descended from a civilized people of a far-off period, for it is most elaborately beaded and embroidered, and their weapons show traces of the very best art of the old armorers. The people have always considered the white man as uncanny, and invariably ran from him, and during the past year only has any communication been established with them.

Mr. Sutherland will also bring representatives of the Moros, another wild tribe, with him. Of the civilized people of the Ilocanos, Visayans and Tagalos will prove equally interesting, and will be constantly employed in their ordinary work of weaving the beautiful textile fabrics of the islands, wood carving, blacksmithing, silver working, pottery, etc. All will join in the sports and pastimes of the islands, and native orchestra of string instruments will furnish music. War dances and harvest dances will be given as illustrative of the characteristics of the islands.

It is the intention to have a corps of guides and lecturers at Jamestown to accompany parties through the various villages and exhibition halls in the enclosure, and to explain every detail possible regarding the island, the people, the arts, industries, etc., of the country, and it is hoped by the close of the exhibition the Philippines will be ready to become missionaries to their own people about America and that Americans will have a better understanding of the islands and the people.

The Evening Star Patterns.

BY MARTHA DEAN.

A Chic Little Gown.

4179—Some of the simplest frocks intended for small folks' wear are the smartest, and one which is especially to be recommended is shown. The gown consists of a tucked blouse and an attached tuck skirt, which are not difficult to fashion and sure to prove becoming. The dress is one suited to development in a wide variety of washing fabrics and cloths, while pongee is liked by many mothers for such gowns. The dress launders excellently and retains its good style as long as it lasts. The closing is made in back, the broad-shouldered effect gained by the tucks being very modish. The medium size calls for 3 1/2 yards of 36-inch material.

4179—7 sizes, 4 to 10 years.

The price of this pattern is 10c.
